In-School Field Trip Form

Create and Learn offers educational building sessions using LEGO® bricks to build motorized and non-motorized models from instructions. Create and Learn has been invited into our classroom to lead our students in interactive building while learning several key components of the curriculum.

The grade 4 field trip is called **Gears and Pulleys** and will last for 120 minutes. The students follow instructions to build a motorized vehicle that moves as it uses gears, axles, motor and a battery pack. The students will also build a motorized amusement park ride based on the pulley belt system.

Date and time of Field Trip: Tuesday February 13, 2018 4H 1-3pm.
Cost: \$11.55 Please return your payment for this event by: Feb. 8, 2018
