

Speed Stacks - Cup Stacking

This year's Cup Stacking Tournament will be a little different than how it has been in the past. First, the school will not be placing an order for the speed stacking equipment. If you are interested, there are several sites online that you can order from. One site you might want to check out is: www.speedstacks.com

The 'tournament' will be held the afternoon of **Thursday, March 23** starting after lunch (around 1:30). One of the exciting differences this year is that all students will be invited to watch all grades participate (in the past gr. 1 & 2, and grade 3 & 4 participated separately). We are excited about this change so that the older students can cheer on the younger ones, and the younger ones will see what they will be able to do in a few years. This will truly be a community building experience!

In order to make sure we have enough time for all grades to participate in a timely manner, the format of the 'tournament' has been adapted. Prior to March 23, each grade will have their own 'mini-tournament'. The top 3 singles and top 3 doubles from each grade level will advance to the school wide tournament.

Please feel welcome to join us in the gym on March 23rd at 1:30.

Thank you for your continued support,
Mrs. Lampka
